## EDUCATION SUBCOMMITTEE MINUTES – DECEMBER 2020

### EDUCATION SUBCOMMITTEE MEETING

Dec. 11, 2020

- Although it has been a challenging year, REVEST/Miami Dade College remains proactive and working hard to meet all deliverables. We continue offering hybrid classes as well as on-line only courses according to student and faculty needs. The current Fall term runs Sept. 1 – Dec. 18, 2020. Spring 2021 Term will run from January 6 to April 30, 2021. The majority of students and instructors remain on-line which is working very well. We are maintaining vigilance on all safety protocols and procedures. All in-person classes institute social distancing, mandatory mask, daily temperature check and screening questions.
- Instructors and students continue giving positive feedback regarding the use of the virtual classroom as it allows for greater scope of access in a safe environment. Students are attending scheduled classes and participating in on-line learning through a variety of on-line resources including the BlackBoard learning management system, My-Lab (Pearson Education) and Burlington English. We are proud of our staff for the all their efforts to provide high quality learning at REVEST for all our students.

- REVEST is already enrolling students for the Spring 2021 Term from January 6 to April 30, 2021. So far around 550 VESOL students have been enrolled program wide in this current Term of Fall 2020, and around 600 are going to be enrolled for Spring 2021. Although COVID 19 has had an impact in our students approximately 150 students have been projected to test and enroll in the program throughout these months in our different Centers.
- The REVEST Program has been able to process over 200 vocational registrations so far in the current fall term ending in December. Likewise, we have already processed a considerable number of new registrations for the Spring 2021 beginning in January. REVEST continues with a campaign initialized in September 2019 (Fall 2197) to increase vocational registrations.
- We have continued to provide our students with Vocational Training Orientations during each VESOL Mimi-Term to start informing them, since lower levels, about their training options. These ongoing presentations also focus on the requirements for each type of course/Program, including VESOL completion, TABE scores and the in-state status; and include information about employment projections, growth and salaries as per a Labor market Analysis conducted by REVEST. In addition, the Vocational Coordinator attends Faculty meetings to discuss and develop strategies with the instructors to push the students' assimilation into vocational training, and the use of the vocational flyers in communicative activities. We continue providing training and advisement to advisors to be updated about changing procedures and system issues.
- REVEST continues to offer on-line ESOL and hybrid classes through scholarships at Community Education (Miami Dade College) Kendall and West Campus. Hialeah and Wolfson centers are eager to serve clients. REVEST strongly urges all refugee service partners to refer any interested client to REVEST for services! Thank you for your support.
- The SAVES Trimester 2020-1 started on August 24, 2020 and will end on December 18, 2020. The total enrollment as of December 8, 2020 was 705. This total includes 104 newly enrolled and 29 SMA GED in Spanish students. SAVES students are participating in online classes, as well as hybrid mode to allow hands-on practice for some vocational courses. Students are enrolled in English for Speakers of Other Languages (ESOL), Adult Basic Education (ABE), General Education Development (GED), Success Management Academy (SMA) GED in Spanish, and a wide range of vocational/technical programs. The SMA GED in Spanish is offered at eight high schools for students 16-18 years of age
- The SAVES District office is working with the SAVES school contact persons and their administrators to provide the support and help needed to ensure that all services to students are provided and that students are accessing the Distance Learning platforms to continue their education.
- Translation and validation services continue to be offered to eligible students. During this trimester (2020-1), twelve students received these services. These services are provided

to students who want to translate and validate their high school diplomas, associate degrees, and four-year degrees and higher, including licensing. Due to COVID 19, students report directly to Silny and Associates for services.

- SAVES continues to serve clients through 14 schools, where there are on site SAVES representatives, and three technical colleges, George T. Baker Aviation, Miami Lakes, and D. A. Dorsey, Technical College, through the voucher system. To better accommodate clients and reach out to prospective ones, the voucher program has been extended to all adult education centers and technical colleges in M-DCPS.
- SAVES continues to recruit clients through its massive marketing/advertising campaign that includes Spanish and Haitian radio spots and digital media in multiple platforms (Facebook, Instagram, and Twitter). One of the main goals of the campaign is to reach out to refugees, asylees and entrants who are still within the five-year eligibility period and are not being served.
- The SAVES website is being updated for prospective clients to view the common eligible documents for the program, the benefits the program offers, and the list of contacts of all schools for easy access to the schools. Great student success stories are uploaded to the website for anyone to peruse. Visit our SAVES website at [saves@dadeschools.com](mailto:saves@dadeschools.com)
- A Zoom meeting will be held in the near future (January 13, 2021) with SAVES District staff and school contacts to give directions, review procedures, and establish priorities for the 2020-2021 school year. This mode will be used until it is safe to meet face-to-face.
