U	Unknown
VAG	Vaginal Delivery
Y	Yes

Hello Child Protective Investigators,

Please remember that your families can not be mandated to participate in the Healthy Families Program. Here is a script that was prepared by Healthy Families Florida to help you present this program to your families.

Thank you so much for your help and your referrals.

Dee Dixon, MS

Program Manager, Healthy Families Lake Sumter Marion

Script for CPI's

Healthy Families is a free, voluntary home visiting program for parents expecting a baby or parents with newborn babies that would be beneficial to you and your family. A Healthy Families representative is available to meet with you to see if you are eligible to be in the program.

If you are eligible and want to receive Healthy Families services, a home visitor will come to your home every week to help you work through challenges and celebrate your successes. Parenting can be stressful and scary at times but you are not alone. Your home visitor will work together with you to connect you with other services you may need, and help you be the best parent you can be by recognizing what your baby needs to grow up healthy and happy. You and your home visitor will participate in fun activities with your baby and will support you in achieving any personal goals you may have like going back to school or getting a job.

If you do not qualify, Healthy Families will be happy to provide you with information on other programs in the community that will help you and your family.

We will send Healthy Families your contact information so that they can call you to set up an appointment.

I hope that you will consider participating in Healthy Families.

Healthy Families Florida Lake Sumter Marion

What is Healthy Families Lake Sumter Marion?

Healthy Families Lake Sumter Marion is part of the nationally accredited Healthy Families Florida statewide home visiting program proven to prevent child abuse and neglect before it ever starts. We provide free, voluntary home visiting services that increase the knowledge and skills of parents so their children can grow up healthy, safe, nurtured and ready to succeed in life. Home visits are more frequent in the beginning and taper off as the family becomes more stable and self-sufficient. Services can last up to five years, depending on the needs of the family.

Home visitors:

- Offer encouragement and support
- Conduct activities that promote parent-child interaction
- Provide information on the child's growth and development
- Screen for postpartum depression
- conduct child developmental screens
- help parents learn healthy ways of dealing with everyday stress
- Connect families to services in the community
- Teach positive parenting skills and age-appropriate discipline options
- Conduct home safety checks and educate parents about child safety
- Help parents to obtain their child's well-child checks and immunizations on time
- Empower parents to set and achieve personal and family goals

When should I refer someone to Healthy Families?

Healthy families accepts referrals on families expecting a baby and families with a child under three months old. We can serve families that are under investigation, but cannot serve families with an open CPS case. Because this is a voluntary program, Healthy Families should not replace mandated services in situations where a case would have been opened or would remain open if Healthy Families was not involved. If you have enough information, you can complete the Healthy Families Florida Record Screen? Referral Form and send it to us or just send us the family's contact information and we will follow up with the family. If you would like to contact us, we can be reached at:

Lake and Sumter Counties

Myschelle Baker
Family Assessment Worker
Lake/Sumter Counties

Fax: 352-742-6008
Myschelle.Baker2@chsfl.org

What happens next?

Once we have the family's information, we will set up an appointment with them to learn more about whether or not they have life stressors that would make them eligible for home visiting services from Healthy Families. This is determined through an in-depth discussion about their history and current situation. If they are not eligible for the program, we will refer them to other appropriate resources in the community. If they are eligible and agree to participate in the program, we begin providing services right away.

Join the Drive Against Child Abuse

Abuse

Embracing Children. Inspiring Lives

The rich history of Children's Home Society of Florida, the oldest and largest statewide children's advocacy organization in Florida, spans over a century.

In October 1902, DW Comstock moved to Florida as part of a national effort to help move orphaned children from institutions into permanent homes.

In 1920, Children's Home Society of Florida became one of the founding members of the Child Welfare League of America, which has remained the country's premier advocacy organization for children. Also, during the early part of the century, Children's Home Society of Florida played a leadership role by supporting child labor laws, as well as supporting the creation of Florida's Department of Welfare.

To date, more than 30,000 of Florida's foster care children have found homes through Children's Home Society.

As time has changed, so too has Children's Home Society of Florida. In addition to offering adoption services, Children's Home Society now focuses its programs and services on ending child abuse and neglect.

What is Healthy Families?

Healthy Families is a free, voluntary support program for parents. It is designed to promote positive parent/child interaction and healthy childhood growth and development, thereby preventing child abuse and neglect. As a participant, a family support worker will visit you in your home to offer support in parenting and encourage you in achieving your life goals.

We only enter where there's a welcome mat.

Healthy Families offers families of newborns experiencing stressful life situations, home visiting services delivered by trained family support workers.

Who can be a part of Healthy Families?

The program is offered to families who meet the following criteria:

- Must be living in Lake, Marion or Sumter Counties.
- Must be either expecting a baby, or have a newborn under the age of three months.

Sponsored by Healthy Families Florida in partnership with the Ounce of Prevention Fund of Florida and the State of Florida Department of Children and Families.
www.healthyfamiliesfla.org

How can Healthy Families help you?

- Improve your family's emotional well-being
- Increase your confidence in parenting
- Promote and encourage education for you and your family
- Build your self-esteem
- Teach you to manage your finances
- Help you to become self-sufficient
- Teach you about available community resources
