SUBJECT: FSFN Implementation: Extended Foster Care

PURPOSE: The purpose of this memorandum is to provide implementation guidance for the Florida Safe Families Network (FSFN) build regarding the Extended Foster Care (EFC).

BACKGROUND: In preparation of the end of Florida's Title IV-E Waiver Demonstration Project, Florida has implemented a Path Forward initiative to explore ways to maximize federal dollars received by our state. This initiative includes the implementation of the Title IV-E funded EFC program effective January 2019. Since Florida has only offered a state funded EFC program since January 2014, it is necessary for the department to establish this additional guidance for the transition of the young adults currently participating in the program in order to claim these federal funds beginning with the January 2019 service dates. To appropriately document and monitor EFC expenditures, as well as to support the claiming of federal funds with the implementation of the new Title IV-E funded EFC program, guidance is being provided via this memorandum.

ACTION REQUIRED: Please share this memorandum with all staff that process out-of-home placements, non-placement services, maintain Service Types, and complete Title IV-E Eligibility determinations.

Upon FSFN Go-Live on January 4, 2019, the following activities shall begin and be completed no later than January 31, 2019:

1. Create standardized Service Types for four Reporting Categories as follows utilizing the Service Type titles below (Helpful Hint: Keep the medium description unique for each Service Type title within each of the Reporting Categories since all of them will be available for the Independent Living Service Category):
