Q211 - This section is concerned with evaluating the sufficiency of information for the six domains of information collection. Reviewers should be evaluating the information in the FFA in regards to the sufficiency criteria for each domain. Reviewer should select "YES" if information is clearly documented and sufficient for decision making within the Family Functioning Assessment . Reviewer should select "NO, information is present but not sufficient" if the concepts are noted in the Family Functioning Assessment but the information is not sufficient to support decision making. Reviewer should select "NO, information not present" if the worker did not include the concepts in the Family Functioning Assessment. This decision is based upon the review of the Family Functioning Assessment as recorded in FSFN by the CPI. Case notes are reviewed, however reviewer determination is based solely on FFA completed. Feedback notes should indicate if the case record either negated or supported decision making not otherwise reflected in the FFA.
