Section 3 – Reporting Category/Eligibility/OCA Table

Keep this 19-page section printed out and made readily available. This can't be stressed enough, as this ensures that Service Types have the:

- ▶ Correct Reporting Category selected, based on the OCA need; and
- ▶ Correct 'Eligibility' data field has been selected.

FSFN PAYMENT REFERENCE GUIDE

SECTION 2 – REPORTING CATEGORY/ELIGIBILITY/OCA TABLE

Necessary When Creating A Service Type

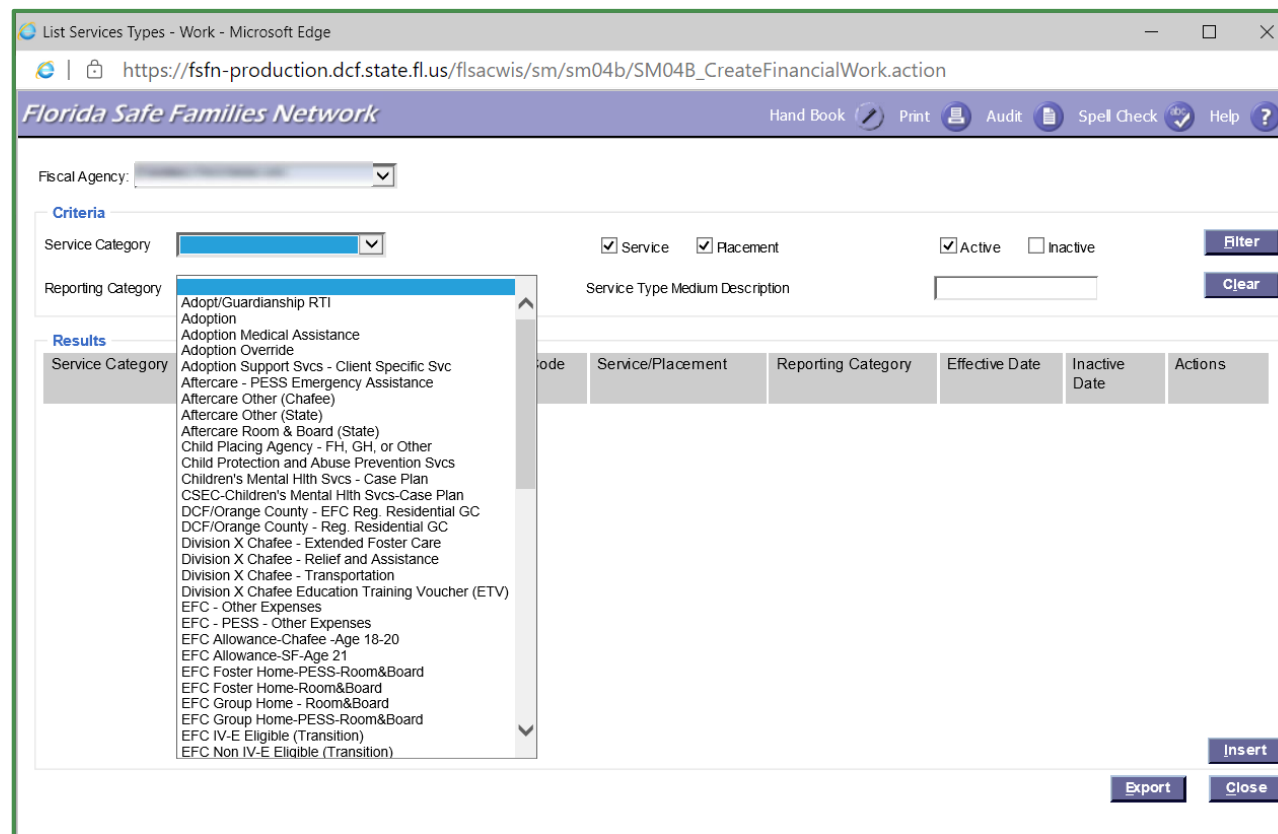

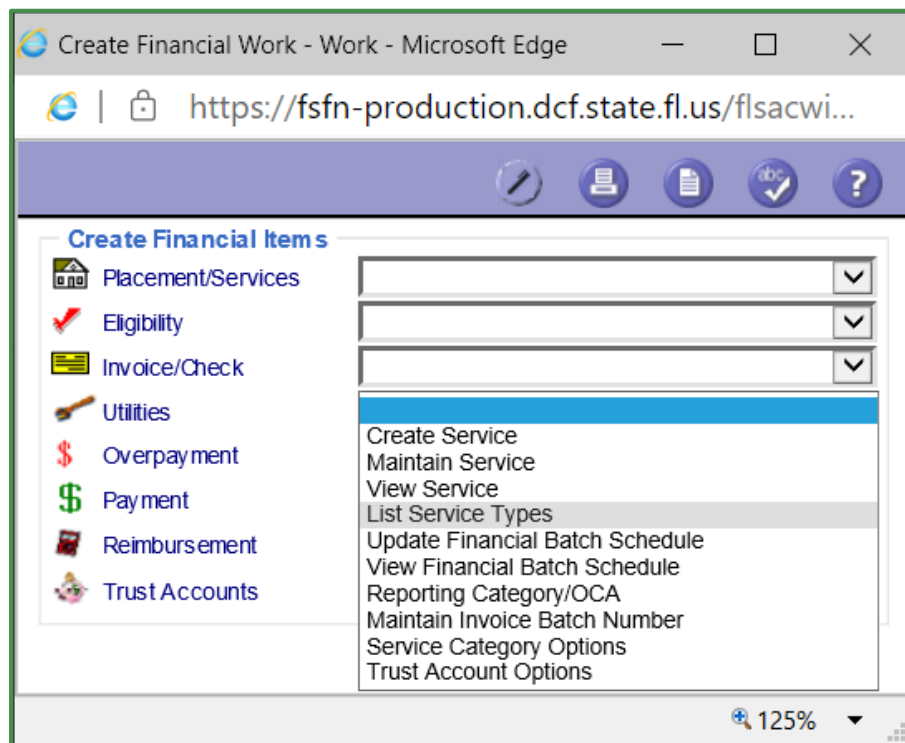

Setting up the Service Type is the “first line of defense” in ensuring the FSFN processed payments are claimed by fund source accurately, such as:

- ▶ Setting up the Service Types for Placements and Services, with special attention to:
 - ▶ How to set up if the cost is allowable as a Title IV-E Foster Care Maintenance Payment and the fund source should be determined based on the child or young adult’s Title IV-E Eligibility.

- ▶ Reporting Category Descriptions, which:
 - ▶ Describe what types of costs **can be** claimed for the Reporting Category, i.e., allowable costs;
 - ▶ **Should the Service Type be directed to the child/young adult’s Title IV-E Eligibility Record based on the Reporting Category chosen;**
 - ▶ Other Cost Accumulators (OCA) associated with the Reporting Category; and
 - ▶ Program Eligibility {for some of the Reporting Categories}.

SERVICE TYPE LISTING

Service Type Listing allows the CBC to view any of their created Service Types queried by one, or both, of these data fields:

- ▶ Service Category; or
- ▶ Reporting Category;

Once the data field(s) has/have been selected, then click on the 'Filter' button to get the retrieved results.

These results can be downloaded by clicking on the 'Export' button and saving the file the computer's C: drive.

Note: Checking the "Placement" box is a great way to only retrieve these Service Types, which can then be easily given to a CBC's Placement Staff to assist in the selection of the most appropriate Service Type being used for a child's Out-of-Home Placement.

SERVICE TYPE LISTING {CONTINUED}

To verify other data fields for the Service Type, click on the 'Edit' hyperlink for the Maintain Services page for that Service Type to pop up.

If there is an age range in the Service Type title, then has a next Service Type been included as well so that the Birthday Batch will pick up the Placement update.

Note: Make sure Provider has all necessary licensed service types attached to their active license.

SLA Non Paid Temporary Absence – This is a non-paid 'Placement' Service Type used when an EFC young adult has a temporary absence from his/her approved supervised living arrangement whether it be planned or unplanned. When a young adult is in this type of placement, all placement and transition type services shall be provided by and/or coordinated by the supervising agency. Examples of when this placement should be used include, but are not limited to, the youth turning 18 years of age during a runaway episode, youth turning 18 years of age placed in an involuntary commitment program, young adults who are detained/arrested/incarcerated, or other extenuating circumstances that would cause a young adult to temporarily leave his/her approved supervised living arrangement.

Remember: Please set this 'Placement' Service Type up as non-paid. When doing this, the 'Reporting Category' data field will be grayed out and disabled.

Using the 'License Subtype' data element for licensed CCA providers within this report would be a great tool to ensure the Subtype for a Licensed CCA has an appropriate Service Type available for the provider in FSFN. By doing this, when a child is placed with a licensed CCA, Placement Staff within the CBC can record the placement to the appropriate 'Placement' Service Type, preventing the need for correction entries later.

Things missed when duplicate Provider IDs are used:

► **Provider Capacity**

One Provider ID has a capacity as 3 and the other Provider ID has a capacity of 0; there are 4 EFC young adults currently placed.

► **Inconsistent Service Types**

► **Daily/Monthly Rate Differences**

If the two SLAs are compared, is the rate difference justified?

OCA BEGIN AND END DATE ANOMALIES

IFC OCA START DATE	IFC OCA END DATE	IFC INVOICE BATCH NUMBER	IFC INVOICE BATCH DATE	IFC SERVICE DESCRIPTION

12/30/1899	12/30/1899	24090	8/25/2021	Adoption Subsidy Service

In situations where the OCA Begin and End Dates don't seem right, such as the year being 1899 or the End Date is prior to the Begin Date, this usually happens when the Service Type's Eligibility data field is set up as 'Applicable'. When this is the case, here is the first *{and usually the last}* thing to check:

- ▶ The Child's Eligibility pages – Yes, "pages"...
 - ▶ For the foster care maintenance payments, there are most likely two (2) open Title IV-E Eligibility pages; and
 - ▶ For the adoption subsidy payments, there are most likely Adoption TANF Eligibility pages where there is a break in the Effective Begin and End Dates.

The Eligibility Status is recorded to a payment when the Financial Batch is scheduled.

In this example, when the Foster Care Service Batch financial was scheduled on 5/1/2022, this child's Title IV-E Eligibility Record updated from "Title IV-E Foster Care Eligible Reimbursable" to "Title IV-E Foster Care Eligible Non-Reimbursable".

The payment will now be mapped to the "ineligible" OCA LCFHI.

In this example, when the Foster Care Service Batch financial was scheduled on 3/14/2022, this child's Title IV-E Eligibility was in a "Pending" status and is reflected as being "Title IV-E Foster Care Pending".

- ▶ The payment is mapped to the "ineligible" OCA LCFHI.

When another Foster Care Service Batch financial was scheduled on 3/16/2022, there had been three (3) updates to the eligibility record, with the 3rd update being reflected as "Title IV-E Foster Care Eligible Reimbursable".

- ▶ The OCA has been re-evaluated, with the payment now being mapped to the "eligible" OCA LCFHE.

The day the Pending Invoice is release will be date listed in the OCA Disposition Date data field which will forever be attached to these unique payment rows.

A FINANCIAL TRANSLATION OF ELIGIBILITY DETERMINATIONS

FSFN Payment Download

In this example, when the Foster Care Service Batch financial was scheduled on 3/31/2022, this child's Title IV-E Eligibility had an Eligibility Determination, effective for April, as being "Title IV-E Foster Care Eligible Reimbursable".

- ▶ The payment is mapped to the "eligible" OCA LCFHE.

When another Foster Care Service Batch financial was scheduled on 4/26/2022, an Eligibility Redetermination had been completed, which resulted as the same eligibility status, but the OCA will still be re-evaluated.

Just like the Department has provided the FSN Payment Reference Guide which, for one, provides information of what types of costs are allowable for Reporting Categories; who decides at the CBC which Service Type should be used to enter the OOH Placement or the Non-Placement Service?

CREATE A SERVICE TYPE REFERENCE GUIDE

Items to address or include in the Service Type Reference Guide

- ▶ Type of License identified within the Service Type –
 - ▶ Foster Homes –
 - ▶ Is the licensed Service Type active on the Provider's active license;
 - ▶ Make sure that just because the foster home Provider is licensed as a Level II and Level V, that the appropriate Licensed Level Service Type is being used.
 - ▶ Child Caring Agency (this one is tougher, as the Specified and Non-Specified Settings will be licensed overall as a CCA) –
 - ▶ For Specified Settings, the CCA's license subtype matches the Service Type being used.
 - ▶ How to set up if the cost is allowable as a Title IV-E Foster Care Maintenance Payment and the fund source should be determined based on the child or young adult's Title IV-E Eligibility.
 - ▶ For CBC created Service Types (these are not the standardized ones listed in the Payment Reference Guide –
 - ▶ Make sure it is described as to when the Service Type is used; and
 - ▶ What type of costs are being captured.

Errors can be found when creating a Service Type Reference Guide -

In this example, it appears the CBC has two (2) active Adoption Subsidy Service Types for young adults, ages 18 – 21; however, one (1) of these service types mapped to the wrong Reporting Category.

Note: Date last paid of 1/18/2023 is indicated for both of these service types.

PREVENTING PAYMENTS BEING MADE WHEN THE CHILD IS NO LONGER ELIGIBLE DUE TO AGE

Using the Age Range and Birthday Batch can be used to prevent making payments when the child is no longer eligible -

A pseudo service type can be created using either an Age Range of '18 to 21' or '23 to 24', can be used for a 'No Pay' Service Type, then attach this new service type to the eligible 'age range' service type to prevent payments from being made for children or young adult once they have aged out.
