This report provides Community Based Care (CBC) Fiscal Workers and Department of Children and Families (DCF) Fiscal Staff with a summary and detail of payments, payment adjustments, and adjustments to fund sources based on a child's eligibility by Other Cost Accumulator (OCA) made during the reporting period, with the associated payment information.

DCF OCA SUMMARY AND DETAIL REPORT

A selection from each of these data prompts are required in order for the report to run.

The Disposition Date fields being requested here are the same as the 'OCA Disposition Date' data element listed in Payment Download. The OCA Disposition Date, aka Disposition Date, is the date when FSFN has fully processed a Payment, Overpayment Adjustment, or Eligibility Adjustment, where DCF considers these records to be "realized" for reporting purposes.

Note: Once all the Prompt Summary selections have a green check, the 'OK' button is then enabled for the user to then run the report.

The screenshot shows the 'Prompts' dialog box with the 'Prompts Summary' list on the left. The list contains four items: 'Enter value(s) for Fiscal Agency:', 'Enter value(s) for Service Batch:', 'Enter Disposition Date(Start): 7/1/2020 12:00:00 AM', and 'Enter Disposition Date(End): 7/31/2020 12:00:00 AM'. The 'Service Batch' item is highlighted in blue. To the right, the 'Enter value(s) for Service Batch:' section has a text input field, a 'Refresh Values' button, and a list of service batch options: Adoption, Foster Care, Group Facility, IL, Non Recurring, and Other. The 'OK' button is disabled.

The screenshot shows the 'Prompts' dialog box with the 'Prompts Summary' list on the left. Using the 'License Subtype' data element for licensed CCA providers within this report would be a great tool to ensure the Subtype for a Licensed CCA has an appropriate Service Type available for the provider in FSFN. By doing this, when a child is placed with a licensed CCA, Placement Staff within the CBC can record the placement to the appropriate 'Placement' Service Type, preventing the need for correction entries later.
