Abbreviation \Term	Description
FPL	Federal Poverty Level
FY	Fiscal Year
HHS	Department of Health and Human Services
HQ	DCF Headquarters
ICD	International Statistical Classification of Diseases and Related Health Problems
JOBS	Job Opportunities and Basic Skills Training
LDAP	Lightweight Directory Access Protocol (LDAP) is a protocol that applications can use to speak to directory services such as Active Directory
FY	Fiscal Year
ME	Managing Entity
Pseudo-SSN	The pseudo-SSN is used when the client's Social Security Number is unknown. The pseudo-SSN must be entered in the following format. The first three characters are the client's first, middle, and last initials. The last 6 characters are the client's date of birth. For instance, if Jane Margaret Doe has a date of birth of January 2, 1984, her pseudo-SSN would be JMD-01-0284. If middle initial is unknown, please enter an X. If pseudo-SSN is already in use, alter the two digits of the birthday to a number greater than 31.

SAMHIS	Substance Abuse and Mental Health Information System
SSI	Supplemental Security Income
SSDI	Social Security Disability Insurance
SSN	Social Security Number
TANF	Temporary Assistance for Needy Families
TCA	Temporary Cash Assistance
TDF	TANF Diversion Families

3. Document Purpose

The purpose of this user manual is to help users navigate and utilize the TANF application. The TANF application enables Providers, subcontracted with a Managing Entity (ME), to submit participant TANF eligibility information to their Managing Entity for review within a controlled database. It also enables the Florida Department of Children and Families Headquarters (DCF HQ) staff to review and analyze the data to create Federal and State reports as needed.

4. Background

Congress created the TANF block grant through the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, which replaced previous welfare programs known as Aid to Families with Dependent Children (AFDC), Job Opportunities and Basic Skills Training (JOBS) and Emergency Assistance (EA). TANF provides funding to states to help move recipients into work. TANF is a funding stream that provides federal funds to states, territories and tribes each year to accomplish the purposes of TANF. It is not a separate program inside of DCF.

SAMH TANF User Manual

Two departments in DCF manage the TANF funding. The Office of Economic Self-Sufficiency (ESS) assists families with temporary cash assistance benefits (TCA). This provides cash payments, vouchers, and other forms of benefits to meet a family's ongoing basic needs such as food, shelter, clothing, utilities, household goods, personal care items, and general incidental expenses as authorized in Section 414.045, F.S.

The Office of Substance Abuse and Mental Health (SAMH) TANF funding is designed to provide substance abuse and mental health services to Temporary Cash Assistance (TCA) participants and to TANF Diversion Family (TDF) participants.

Temporary Cash Assistance (TCA)

SAMH provides participants who have applied for or are receiving TCA with substance abuse and mental health services to avoid long-term welfare dependency and stabilize families so that children can be cared for in their own homes or in the homes of relative, and so that families can be self-sufficient, as provided under Section 414.1585.F.S.

SAMH TANF Diversion Family (TDF)

SAMH also uses TANF funding to assist families who are not eligible for TCA but meet other criteria by providing diversionary substance abuse and mental health services. This is for families who are at-risk of welfare dependency due to a substance use disorder or a mental health disorder. It is intended to provide services and one-time payments to assist families in avoiding welfare dependency and to stabilize families, so that children can be cared for in their own homes or in the homes of relatives and so that families can be self-sufficient, as provided under Section 414.1585, F.S. Additionally, a family must be at or below 200% of the federal poverty level, and must be meet one of the following criteria:

- a. A parent or relative caretaker with one or more minor children living in the home;
- b. A non-custodial parent with a court order to pay child support;
- c. A pregnant woman;
- d. A family whose children have been removed from the home by the Child Welfare Program (where the service is included or added to the active family reunification goals in the case plan);
or
- e. A Supplemental Security Income (SSI) recipient or a Social Security Disability Insurance (SSDI) recipient.

The Federal Poverty Level (FPL) is a measure of income issued every year by the Department of Health and Human Services (HHS). The FPL measures assist in determining eligibility for programs and benefits, including savings on Marketplace health insurance, and Medicaid and Children's Health Insurance Program (CHIP) coverage. HHS updates the FPL yearly.

5. TANF Roles

There are three categories of TANF users, Department of Children and Families (DCF), TANF Specialists (Managing Entity) and Providers, that can access the TANF application.

5.1. Provider

These users submit the client's TANF applications. The application assists in determining if the client meets the eligibility requirements for TANF. The user can view, modify, and submit a record pertaining to their Provider but cannot access data from other providers.

SAMH TANF User Manual

5.2. TANF Specialist

TANF Specialists are the Managing Entity users who review pending applications to verify there are no issues within the client's TANF notification. These users can view, and approve or reject notifications for their circuits, but cannot access notifications for other providers that are not within their purview.

5.3. DCF Admin

DCF users with an Admin role can review and analyze TANF data. They can view any data within the system. These users also perform the administration of the user accounts and role assignments in the system and can delete records as requested.

6. Creating User Accounts

Managing Entity and subcontracted providers will submit requests for TANF user accounts to their Managing Entity Data Liaisons. The TANF access packet includes a SAMH Database Access Request Form, an Access Confidentiality and Nondisclosure Agreement Form, and current DCF Security Awareness and HIPAA Information and Action training certificates. The trainings may be accessed at -<http://www.myflfamilies.com/general-information/dcf-training>. DCF employees may submit their TANF access request packets directly to the DCF Help Desk at dcf.helpdesk@myflfamilies.com. DCF employees should submit the SAMH Database Access Request Form, a Security Agreement Form (in lieu of the Access Confidentiality and Nondisclosure Agreement Form), and their DCF Security Awareness and HIPAA training certificates.

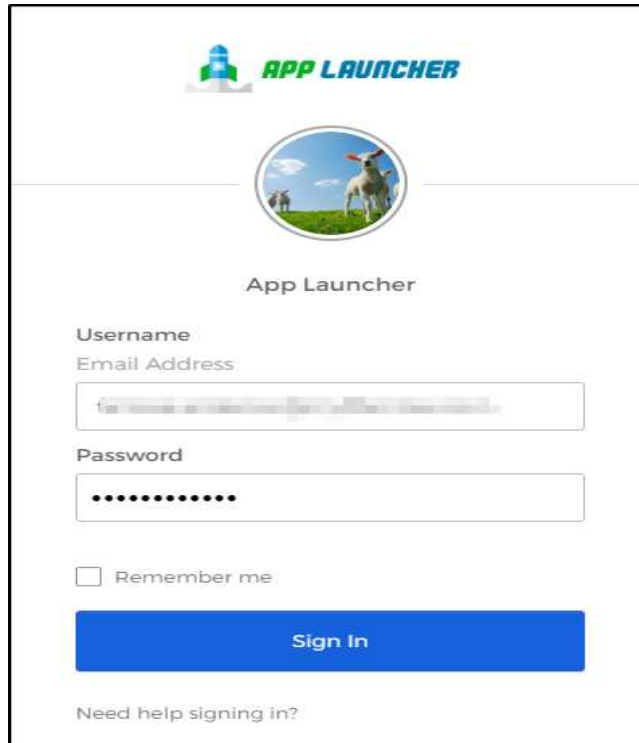

Once all information has been received by the DCF Administrator, the TANF application user accounts will be created, and the service ticket reassigned to request OKTA user accounts be created. When the OKTA account has been created, the Data Liaisons will be notified via email by the DCF Administrator, and instructions will be sent to the new user by the Data Liaison regarding OKTA user account setup and TANF application access.

Additional information is available on the [SAMH-TANF](#) website.

7. TANF Sign In

Users will be provided with the URL to sign into OKTA APP Launcher to access the TANF application using an email and password combination.

SAMH TANF User Manual

The screenshot shows the 'APP LAUNCHER' login interface. At the top, there is a logo with a blue and green icon and the text 'APP LAUNCHER'. Below the logo is a circular image of a cow in a field. Underneath the image is the text 'App Launcher'. The login form includes the following elements:

- Username** label above the 'Email Address' input field.
- Email Address** label above the input field.
- Password** label above the input field.
- A checkbox labeled 'Remember me'.
- A blue 'Sign In' button.
- A link labeled 'Need help signing in?' below the button.

SAMH TANF User Manual

After a user has successfully logged into TANF, the privacy notification will appear. After the user has read the notification, they can either select the Accept button or exit out of the application.

By logging in to the SAMH Temporary Assistance for Needy Families (TANF) Application, I understand that I have been authorized by the Florida Department of Children and Families to view information that may be sensitive and/or confidential.

I understand that upon viewing/receiving this information it becomes my responsibility to provide continued protection of the information, to not disclose the information to any unauthorized person or persons, and to use the information in only the authorized manner agreed upon, and to destroy the information after the purpose for its collection has been fulfilled.

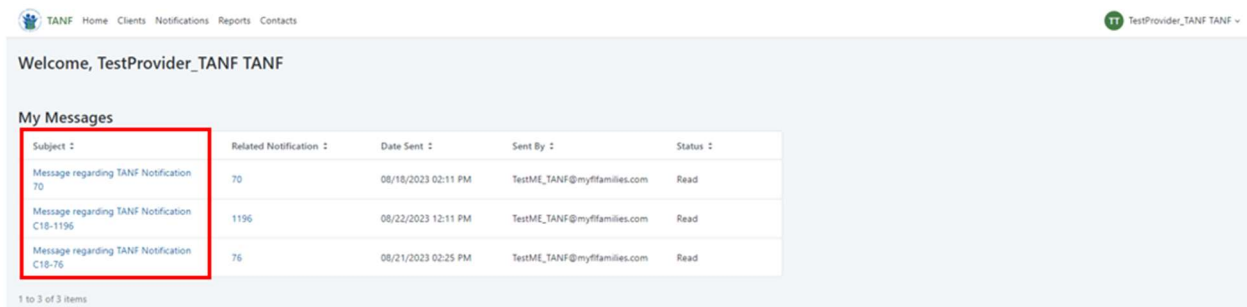

Furthermore, I understand that my violation of this agreement and/or unauthorized use of this application may result in a state or federal crime being committed, which could lead to fines and/or imprisonment for others and myself.

[Accept](#)

8. Home Page

The Home Page will contain links for Clients, Notifications and Reports. The home page will also show any messages that have been sent to a user that are related to notifications.

Users can view the contents of the message by clicking on the message Subject.

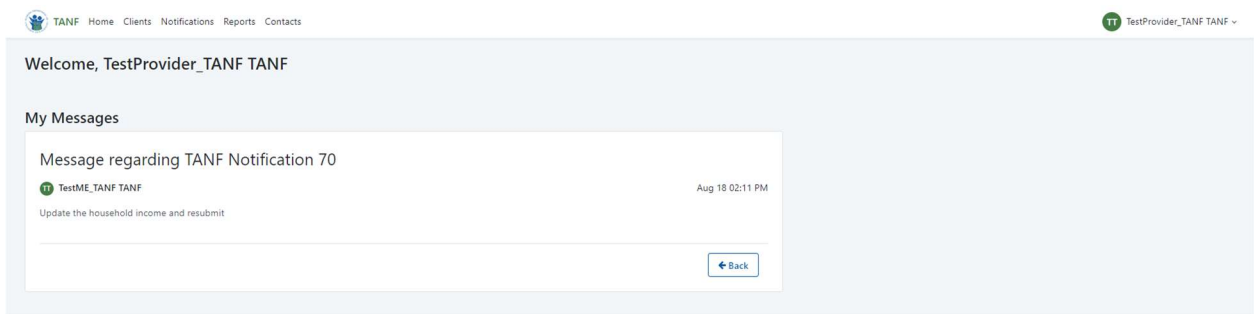

* Screenshot depicts created test data

The contents of the message will be displayed under the sender's name.

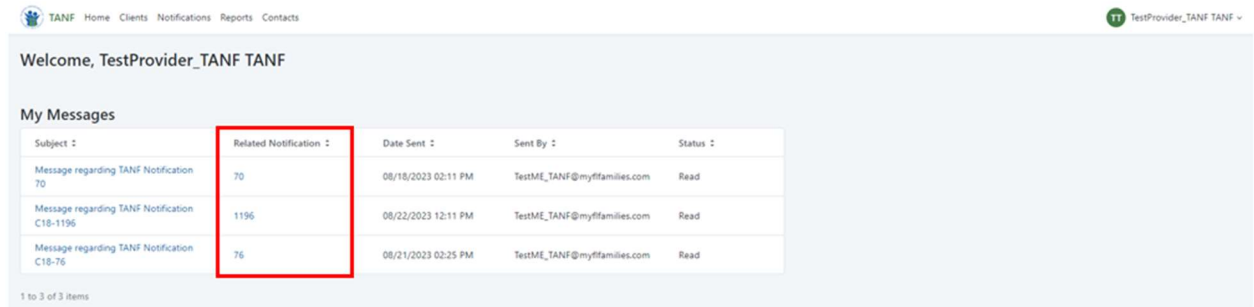

SAMH TANF User Manual

* Screenshot depicts created test data

Users can access the notification by clicking on the Related Notification link.

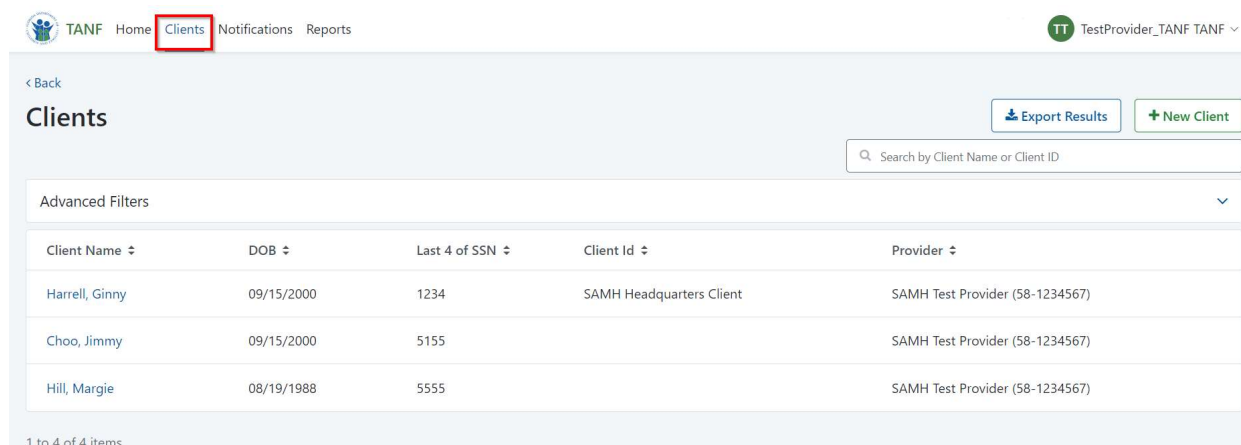

* Screenshot depicts created test data

SAMH TANF User Manual

9. Clients

All users can view clients, based upon their role, by selecting the Clients link at the top of the home page.

The screenshot shows the SAMH TANF application interface. At the top, there is a navigation bar with links for TANF, Home, Clients (highlighted with a red box), Notifications, and Reports. On the right, there is a user profile for 'TT TestProvider_TANF TANF'. Below the navigation bar, there is a '< Back' link and a 'Clients' heading. To the right of the heading are buttons for 'Export Results' and '+ New Client'. A search bar is present with the placeholder text 'Search by Client Name or Client ID'. Below the search bar is an 'Advanced Filters' section, which is currently collapsed. A table displays client information with columns for Client Name, DOB, Last 4 of SSN, Client Id, and Provider. The table contains three rows of data. At the bottom left of the table area, it says '1 to 4 of 4 items'. A note at the bottom center states '* Screenshot depicts created test data'.

Client Name	DOB	Last 4 of SSN	Client Id	Provider
Harrell, Ginny	09/15/2000	1234	SAMH Headquarters Client	SAMH Test Provider (58-1234567)
Choo, Jimmy	09/15/2000	5155		SAMH Test Provider (58-1234567)
Hill, Margie	08/19/1988	5555		SAMH Test Provider (58-1234567)

9.1. Clients Page

DCF users can see all Clients displayed that have been entered in the TANF application. Providers can only see clients displayed which they have entered. TANF Specialists will be able to see clients displayed whose notifications were submitted by their Managing Entity's subcontracted providers.

All columns on the Clients page can be sorted. The Client Name column is sorted by the client's first name. Selecting a client's name will open the client's detail information.

9.2. Clients Advanced Filters

The Advanced Filters section is collapsed under the basic search field. It allows a user to search and filter by specific criteria, based upon their role. This includes:

- First Name
- Last Name
- Date of Birth
- Last 4 of SSN
- Client ID
- Provider
- Managing Entity

SAMH TANF User Manual

All fields marked with an asterisk are required to create a new client record. Any fields that do not have an asterisk, are optional fields.

- a. Provider – A drop down that will list all Providers that are associated with the user. Most users will only have a single provider. Required.
- b. Client ID – Optional.
- c. First Name – Required.
- d. Middle Initial – Optional.
- e. Last Name – Required.
- f. DOB – Required.
- g. SSN – Required. If the SSN is unknown, please use a pseudo-SSN in the following format. The first three characters are the client's first, middle, and last initials. The last 6 characters are the client's date of birth. For instance, if Jane Margaret Doe has a date of birth on January 2, 1984, the pseudo-SSN would be JMD-01-0284. Use an X if the middle initial is unknown. If the pseudo-SSN is already in use, alter the two digits of the birthday to a number greater than 31.
- h. Ethnicity – Drop down. Required
- i. Race – Drop down. Required
- j. Gender – Drop down. Required.

Once the New Client record has been saved, the title will change to Client Detail. The user will have the ability to Edit or Delete the Client Detail record if incorrect information was entered or the record was created in error. Changes to Client data, including the SSN, will be updated on the Client record. A duplicate Client record **should not** be created if a new SSN is received. The Client Notifications section will also be visible and allow users to create a client notification.

SAMH TANF User Manual

10. Notifications

TANF Provider users can also create a new Client Notification from within a Client Detail record.

The screenshot displays a web interface for a client record. On the left, the 'Client Detail' form contains the following information:

- Provider: Miami Behavioral Health Center
- Client Id: (empty)
- First Name: Sharon
- Middle Initial: M
- Last Name: Stone
- DOB: 03/31/1999
- SSN: 534-54-8741
- Ethnicity: None of the above
- Race: Asian
- Gender: Female

On the right, the 'Client Notifications' section is highlighted with a red border. It features a flag icon and the text: 'There aren't any TANF notifications for this client yet.' Below this text is a green button labeled '+ New Notification'. At the bottom of the Client Detail form, there is a red 'Delete' button.

* Screenshot depicts created test data

SAMH TANF User Manual

10.1. Create a New Notification

A new notification will have required fields in five tabs that have to be completed before a notification can be saved as a draft or submitted to the TANF Specialist. The Messages tab will appear after a notification has either been saved as a draft or submitted.

Since a notification is created from within a client detail page, the notification header will contain the client's name and last four of the SSN.

10.1.1. Eligibility

- a. Site – Drop down. Required.
- b. Provider – Auto populated based on the provider listed on the Client Detail record.
- c. Managing Entity – Auto populated based upon the Site selected.
- d. EZ Form Signature Date – Required
- e. Service Eligibility Begin Date – Auto populated based upon EZ Form Signature Date
 - i. For Recertification, the date will auto populate based upon the first day of the recertification period.
- f. Receiving Medicaid – Check box. Optional

 - i. Scroll or search by full/partial word.

The screenshot shows a web form titled "New Notification for Sharon Stone - 8741" with an "Unsaved" indicator. The form is divided into a left sidebar and a main content area. The sidebar has tabs for "Eligibility", "Address", "Participant", "Household", and "Assistance", with "Assistance" currently selected and highlighted with a red box. The main content area is titled "Assistance" and contains three required fields: "Reason(s) for Assistance" with a dropdown menu showing "Child welfare", "Type of Assistance" with a dropdown menu showing "TANF SAMH Diversion Family", and "Requested Service(s)" with a dropdown menu showing "Day Treatment" and "In-Home and On-Site Svcs". At the bottom right of the form are two buttons: "Save Draft" and "Submit".

* Screenshot depicts created test data

10.1.6. Messages

The Messages tab will only appear after a notification has either been saved as a draft or submitted for the TANF Specialist to review.

Messages can be created by any user who has access to a notification. After the message is created, an email will be sent to the receiver(s) letting them know they have a message to view inside the TANF application. Once a message has been sent, it can't be modified. Only the DCF Administrator role can delete a message. All messages related to a specific notification will appear on the Messages tab in a descending order. When the receiver logs into the TANF application, the message will appear on their home page.

10.1.7. Notes

The notes section will only appear after a notification has either been saved as a draft or submitted for the TANF Specialist to review. Notes will contain any notes that are created by a user or actions performed by the system. A user can choose to see All, User, or System notes and can sort notes by date. All notes created by user or system will include a date/timestamp and who created the note. Once a note has been sent, it can't be modified. Only the DCF Administrator role can delete a note.

SAMH TANF User Manual

10.2. Save as a Draft

A notification with all required fields completed can be saved as a draft if the Provider is not ready to submit it to the TANF Specialist. These notifications will have a status of 'Draft' and will be given a Notification ID. The Provider will have the ability to either Edit, Delete, or Submit the notification.

11. Submit a Notification

If the notification is submitted, the notification will be given a Notification ID and will have a status of 'Pending'. The date and the name of the person who submitted the notification will also appear on the Eligibility tab and a Notes section will appear on the right side of the notification. The notification will be available for the TANF Specialist to review.

11.2.Delete a Notification

If the notification has been created in error, the TANF Provider user can delete a notification that is in a 'Draft' status. This can be done when a notification has been saved as a draft or withdrawn.

The screenshot displays a notification form titled "Notification 32 (Sharon Stone - 8741)". In the top right corner, there is a "Draft" status indicator. The form is divided into several sections: "Eligibility", "Address", "Participant", "Household", "Assistance", and "Messages". The "Eligibility" section is currently active and contains the following fields:

Site	Provider	Managing Entity
Glorious Days	Miami Behavioral Health Center	Central Florida Cares Health System

EZ Form Signature Date *	Service Eligibility Begin Date *	Receiving Medicaid
06/23/2023	06/23/2023	<input type="checkbox"/>

Created on 08/03/2023, by Tamara Anderson

At the bottom right of the form, there are three buttons: "Delete" (highlighted with a red box), "Edit", and "Submit".

* Screenshot depicts created test data

11.3.Reject a Notification

Once the notification has been submitted to the TANF Specialist, it will be reviewed for accuracy. If an issue is identified with the notification, the TANF Specialist can reject the notification. A reason for the rejection is required and will be displayed in the Notes section of the notification. This will send the notification back to the Provider. The notification status will change from 'Pending' to 'Rejected'. The date and who rejected the notification will appear on the Eligibility tab of the notification.

SAMH TANF User Manual

11.3.1. Rejected Notification - Provider View

If there is an issue with a notification and it is rejected by the TANF Specialist, the Provider will be able to edit the notification, correct the issue and then resubmit the notification to the TANF Specialist.

11.4.2. Approved Notification - TANF Specialist View

If it is found that the notification was approved in error, the TANF Specialist can undo the approval. This will take the notification from 'Approved' to 'Pending' status. The approval notification ID will change back to the notification ID, and the date and who approved the notification will be removed.

SAMH TANF User Manual

12. Discharge a Notification

The Provider can only discharge a notification that is in an 'Approved' status. When the Discharge button is selected, a Discharge Notification popup message will appear. The provider will select a single Discharge Type, which will filter the Discharge Reason. Multiple discharge reasons for the Discharge Type can be selected. The Discharge Date defaults to the current date. If the discharge happened on a prior date, the Provider will be able to edit the date to reflect the correct date of discharge. Once the discharge has been completed, the notification status will change from 'Approved' to 'Discharged' and a Discharge tab will appear between the Assistance and Messages tabs. The Discharge tab will contain the data that was entered on the popup.

- Discharge Type – Drop down. Required.
- Discharge Reason – Drop down. Required.
- Discharge Date – Editable. Required

The screenshot shows a 'Discharge Notification' popup form. It contains three main input fields: 'Discharge Type' with a dropdown menu showing 'Select Discharge Type', 'Discharge Date' with a text input showing '07/21/2023' and a calendar icon, and 'Discharge Reason' with a dropdown menu showing 'Select...'. At the bottom right, there are two buttons: 'Cancel' and 'Discharge'.

If the Provider discharged the participant in error, the Provider could Reopen the notification. This will change the status back to 'Approved' and remove the Discharge tab from between the Assistance and Messages Tab.

13. Re-Certification

The re-certification of active clients happens annually from July 1 to July 31. During this time frame, the Recertify button will be visible for all notifications that are in an 'Approved' status. Note: The DCF Admin can extend the recertification past July 31st as needed.

SAMH TANF User Manual

Notification C4-22 (Bobby Boop - 3221) Approved

Eligibility

Address: Site: Working Wonders, Provider: 1st Step Behavioral Health Provider, Managing Entity: Lutheran Services Florida

Participant: Working Wonders

Household: EZ Form Signature Date *: 06/02/2023, Service Eligibility Begin Date *: 06/02/2023, Receiving Medicaid:

Assistance: 06/02/2023

Discharge Recertify

* Screenshot depicts created test data

13.1.1. Recertification New Notification

When the Provider selects a notification to recertify, the system will automatically discharge the current notification and create a duplicate of the notification that will be in a 'Draft' status and will include a Recertification indicator.

Notification 33 (Barry Boop - 3211) Recertification Draft

Eligibility

Address: Site: Working Wonders, Provider: 1st Step Behavioral Health Provider, Managing Entity: Lutheran Services Florida

Participant: Working Wonders

Household: EZ Form Signature Date *: mm/dd/yyyy, Service Eligibility Begin Date *: 07/01/2023, Receiving Medicaid:

Assistance: mm/dd/yyyy

Messages: Created on 08/04/2023, by John Public

Delete Edit Submit

* Screenshot depicts created test data

All the data from the original notification will remain except for the following:

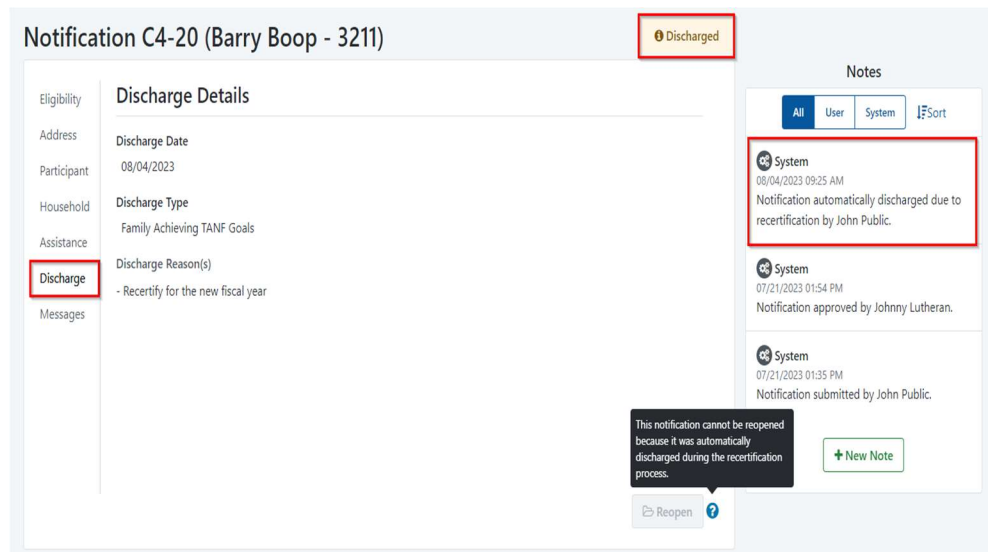

- Eligibility:
 - EZ Form Signature Date will be blank.

SAMH TANF User Manual

- Service Eligibility Begin Date will be auto populated with the first day of the recertification period.
- Messages:
 - All messages for the original notification will remain with that notification.
- Status
 - The status will be set to Draft to allow the Provider to make updates as necessary.
 - The Provider will then submit the Recertification Notification to the TANF Specialist for approval.

13.1.2. Recertification Discharged Notification

When the provider selects the Recertify button, the system will automatically discharge the notification with the Discharge Type: Family Achieving TANF Goals and Discharge Reason: Recertify for the new fiscal year. The status will change from 'Approved' to 'Discharged'. The system will create a new notification with a status of 'Recertification'. A discharged notification that is part of the recertification process cannot be reopened because it was automatically discharged.

The screenshot displays a notification record for Barry Boop (3211) with a status of 'Discharged'. The 'Discharge Details' section includes the following information:

Field	Value
Discharge Date	08/04/2023
Discharge Type	Family Achieving TANF Goals
Discharge Reason(s)	- Recertify for the new fiscal year

The 'Notes' section contains three entries:

- System (08/04/2023 09:25 AM): Notification automatically discharged due to recertification by John Public.
- System (07/21/2023 01:54 PM): Notification approved by Johnny Lutheran.
- System (07/21/2023 01:35 PM): Notification submitted by John Public.

A tooltip message states: "This notification cannot be reopened because it was automatically discharged during the recertification process." A 'Reopen' button is visible at the bottom of the notification record.

14. Notifications

All users can view notifications, based upon their role, by selecting the Notifications link at the top of the home page. Notifications can be filtered by All, Draft, Pending, Approved, Rejected and Discharged. Most of the columns in each filter are sortable. Users have the ability to produce a spreadsheet of any of the filters by selecting the Export button.

TANF Participant Log Report

Fiscal Year: FY-2024

Month: Aug 2023

Provider: SAMH Test Provider

Generate

The user will select the Generate button and a PDF report will be created for the user to download.

SAMH TANF User Manual

14.8.1. DCF SAMH TANF Participant Log Report

A Provider can attest that the participants listed on the log meet the TANF Income eligibility requirements for the month generated according to the 200% of Federal Poverty level guidelines provided and that all of the information is correct. The Provider should generate and print the monthly log, and print their name, date, and sign the log before submitting it to their Managing Entity TANF Specialist.

Based on the report selections, the TANF Participant Log will be broken down by Program. If the Referral Focus on the Notification for a participant indicated Co-Occurring, the client will show under each Program. The following information is displayed in the TANF Participant Log.

- Provider Name
- Provider Address
- Circuit
- Program (Based on services offered at Provider Site)
 - AMH – Adult Mental Health
 - ASA – Adult Substance Abuse
 - CMH – Child Mental Health
 - CSA – Child Substance Abuse
- FY – Fiscal Year
- Month for which the report was generated
- Client
- SSN
- Notification/Approval Number
- Status
 - 1 =TCA
 - 2 =TDF
 - 3 =Successful (Discharge) D/C
 - 4 =Administrative (Discharge) D/C
 - 5 =No longer eligible
 - 6 =Unsuccessful (Discharge) D/C
- Date
 - Eligibility Begin Date for Statuses 1 and 2
 - Date the Notification was Discharged for Statuses 3 – 6

SAMH TANF User Manual
