Interim Report Discussion

Specialized Therapeutic Group Care Recommendation

Commissioner Rein provided an overview of specialized therapeutic group care and the subcommittee's related recommendations. Confusion surrounding the multitude of agencies involved in this level of care, an issue with no single state agency identified as the responsible party for regulating this level of care, reimbursements remaining stagnant and, no system changes in past 25 years. Chair Reeve recommends the loss of capacity and agency collaboratives amongst the agencies and stakeholders to ensure the system is adequate.

School Recommendation

Subcommittee Chair reviewed appropriations bill language that passed this legislative session that is in-line with the subcommittee's draft recommendations (Lines 1279 through 1401 of HB 5101).

Recommendation aims to establish school and community behavioral health collaboration by creating a model memorandum of understanding that would be utilized statewide.

Subcommittee Chair Hunschofsky stressed the importance of not only reporting students who receive screenings and referral but also measuring student outcomes.

MOU should include a workgroup/convening group and consider models already in place across the state, outcomes and performance should be included in the MOU and change date of final plan to September 1st and include equitable funding requirement for additional utilization management activities.

Subcommittee Chair proposes timeline for completed MOU by end of March or April 2024.
