

Appendix 3:

The table below shows the ICD9 codes that are acceptable in the Substance Abuse and Mental Health Information System (SAMHIS). This replaces all previous versions of allowable ICD9 codes used in the Substance Abuse and Mental Health Information System. The following are the codes and their meaning.

STATUS: 0 = Inactive, code is not usable, 1 = Active, this will show in SAMHIS.

PROGRAM CODE: N = Not Active, M = Mental Health Code, S = Substance Abuse Code
 B = Behavioral Health (can be used for either a mental health or substance abuse diagnosis)

NOTE: Codes with 'N' (Not Active) in the Program Code are for historical purposes only.
