- **OZ Recommendations Enhancement part 3 (11673)**
  - FASAMS displays "Running" status when a file is being processed by the system. Currently, there is no way to export the jobs on the submission tab.
    - Add file processing progress bar to status column on Submission tab
      - Replaces "Running" status with progress bar that shows processing progress based on root entity
    - Add export option to Submission tab to allow users to export submitted jobs based on SE selection
    - Add clickable vertical ellipses to far right side of Jobs bar
      - Ellipses opens dropdown with Export button
        - Export button opens popup window
          - Jobs submitted start and end date picker
          - ME dropdown that supports multi-select
          - Export button
