4. Upcoming Changes and Noteworthy Details

<https://www.myflfamilies.com/service-programs/samh/fasams/enhancements.shtml>

- 2021.07.0 is now determined. The current list of enhancements has been finalized and will go into Production in FASAMS starting 8/1/21.

- 2021.10.0 - Tentative List of Enhancements
 - WI 459635 – Integrate OKTA and Enable Multifactor Authentication
 - WI 316529 – Create Ability to Enter Seclusion and Restraint Events (SANDR)
- Two Additional Enhancements Planned for FY21-22
 - Provide Better Tooling and Support for ME Contract Management

Some data required for the regions to effectively measure performance and manage the ME contracts is not include in FASAMS today (e.g. FIT, FACT, CAT, etc.) Most of this data is collected via spreadsheets. This enhancement will make it possible for MEs to submit this data into FASAMS and provide support to SAMH’s data team to create reports and dashboards that would be accessible to HQ, regional, and ME staff.
 - Provide Better Tooling for Financial Reconciliation of SAMH Services

Managing Entities submit details about services provided by their providers into FASAMS. They also submit invoicing details in a prescribed format to DCF. This enhancement will make it possible to submit or import the invoicing information into FASAMS and create reports that correlate what is invoiced with the supporting service details submitted into FASAMS.

Unexpected Error

The Unexpected Error is currently in the resolution phase. Reports are still coming in that there are particulars to the issue which continue to make themselves felt. The current advice continues to be that if the unexpected error is experienced, users are directed to resubmit the original information and it should push through.
